# Data Information & Limitations

The tables list the top 25 institutions awarding certificates or degrees to Latinos for 2009-10 at the certificate, associate, bachelor, master's, 1<sup>st</sup> professional, and doctorate levels. Each list includes information on location, sector, identification of Hispanic-Serving Institutions (HSI), as well as a summary of each list. The key to the sector (type and control) of each institution is as follows:

Key	Sector
1	4-year public institution
2	2-year public institution
3	4-year private not-for-profit institution
4	2-year private not-for-profit institution
5	4-year private for-profit institution
6	2-year private for-profit institution

It should be noted that the lists of top 25 institutions conferring degrees to Latinos by academic level is based solely on the numbers of certificates or degrees awarded in 2009-10. Thus, the lists of institutions are different for each academic level. The lists included in the brief do not provide any information on the quality or productivity of the institutions. This would require additional and more detailed analysis than is provided in this brief. Further, the lists count awards, not an unduplicated headcount of recipients.

## Research Methodology

The lists were created with data on certificates and degrees conferred from the Integrated Postsecondary Education Data System (IPEDS), Institutional Characteristics and Completions Survey, 2009-10, from the National Center for Education Statistics (NCES), U.S. Department of Education. These data are reported by every institution of higher education participating in Title IV (federal student financial aid programs). Therefore, these lists do not exclude for-profit institutions or those that only offer certificate programs. Both certificates of less than one-year and those of one-year but less than two years are included to reflect the diverse postsecondary options available to those preparing for the current workforce needs of the country.

The identification of institutions as HSIs, is based on analysis by *Excelencia* in Education using the IPEDS, Institutional Characteristics and Enrollment Survey, 2009-10, from NCES, U.S. Department of Education. A complete list of the institutions that meet the basic federal definition of an HSI are available at [www.EdExcelencia.org/hispanic-serving-institutions-hsis](http://www.EdExcelencia.org/hispanic-serving-institutions-hsis).

visit [www.EdExcelencia.org](http://www.EdExcelencia.org).

**Excelencia in Education** accelerates higher education success for Latino students by providing data-driven analysis of the educational status of Latinos, and by promoting education policies and institutional practices that support their academic achievement. A not-for-profit organization, *Excelencia* is building a network of results-oriented educators and policymakers to address the U.S. economy's need for a highly educated workforce and for civic leadership. For more information, please

Florida College Access Network's mission is to create and strengthen a statewide network that catalyzes and supports communities to improve college & career preparation, access, and completion for all students. Our Big Goal is to increase the proportion of working-age adults in Florida who hold a high-quality postsecondary degree or credential to 60% by the year 2025. For more information, visit [www.floridacollegeaccess.org](http://www.floridacollegeaccess.org).
